WORLD MEETING ON HUMAN FRATERNITY: #BEHUMAN

**12 ROUND TABLES, 30 NOBEL PEACE PRIZE LAUREATES, SCIENTISTS,
ECONOMISTS AND PERSONALITIES FROM ALL OVER THE WORLD
ANSWER THE CALL OF POPE FRANCIS:
LET US DREAM AS ONE HUMANITY... ALL BROTHERS! (FT 8)**

The second **World Meeting on Human Fraternity (WMHF)**, organised by the *Fratelli tutti* Foundation and entitled **#BeHuman**, will be held on **Friday 10 and Saturday 11 May**.

Women and men of our time will meet in 12 different thematic tables, located in the Vatican and in symbolic places of the City of Rome, such as the Palazzo del Campidoglio, the Palazzo della Cancelleria, the Accademia dei Lincei, Palazzo Rospigliosi, the Cnel, the Salone d'onore del Coni.

The experience of fraternity lived in dialogue by 30 Nobel Peace Prize winners, scientists, economists, mayors, doctors, managers, workers, sports champions and ordinary citizens from all over the world, aims to seek alternatives to wars and poverty.

Reflecting on 'fraternity' as the basis of a new world, made up of beautiful human and social relations, the tables will try to find concrete proposals to begin to change history, stimulate the reforms that are lacking, understand where the principle of fraternity is already present in social life and discern the parameters needed to measure it.

In view of World Children's Day on 25 and 26 May in Rome, **Pope Francis** will also speak at the round table on 'Children: Future Generation'.
